

Intuitive Investing Intensive

The four-day Intuitive Investing Intensive (I-Cubed) will be held immediately following the Intuitive Investing Workshop and is designed for those desiring an application-based program. The Workshop and the Intensive are different programs requiring separate registrations.

Intuitive Investing Intensive is a highly active program requiring participation in procedures introduced in the Intuitive Investing Workshop and the Remote Viewing Practicum. As such, you must be a graduate of Intuitive Investing Workshop or Remote Viewing Practicum in order to attend. It is a nonstop, fast-paced group effort designed to maximize the effectiveness of intuitive investing while emphasizing individual responsibility for one's own trades.

The Intensive is all about maximizing the use of your intuitive associative remote-viewing skills by making ten real-world trades during the program. Included in your \$1100 registration fee is your \$100 membership in PRECOG, an online program for applying your intuition about the future to financial investing or sports betting. The focus here is manifestation of your intent through action. There will be very few lectures with most of your time involved in the three-tiered process of viewing, judging, and feedback.

For each trade, you will make an individual prediction that will be used to generate a group consensus prediction. The group prediction will be available to all participants; however, each participant will make his or her own trading decisions for his or her own personal profit/loss.

In addition to your membership in PRECOG, if you want to make investments during the I-Cubed workshop, a personal account must be established before the workshop begins. A minimum investment of \$1,000 to a maximum of \$10,000 can be used to activate your account. These funds can be wired or sent by check (leave enough time to clear) to Marty Rosenblatt (email him for the postal address and who to make payable on your check). All trades will be closed out by the end of the workshop, and you will receive a check closing out your account at the end of the workshop. You will be required to read, understand and sign a commodity futures risk disclosure form and a partnership agreement. You will receive a K-1 tax form at the end of the year.

Contact Marty Rosenblatt at Marty@P-I-A.com for more information on making your own investments during the Intensive.
