

TIMELINE

Each of us is born with unique opportunities for personal growth and self-actualization. Yet in the unfolding of our lives, we sometimes experience doubts that we are fulfilling our true potential. *Timeline* is designed to guide you through a step-by-step process of *knowing* your higher purpose in life and offering you new insights in how to fulfill it.

In *Timeline*, you will revisit the early years of your current life to uncover and release old beliefs or recurring emotions that have been limiting or obstructing your progress in some way.

The next step is the exploration of other lives for a new understanding of the origins of your current life issues. In healing and releasing your past, you can create the opening for a more fulfilling future.

You will then be given the opportunity to move forward in local time to meet your future self, perceive future events, learn your life's purpose and gain a new overview of what is possible for you to still accomplish with the time you have remaining in this life.
